

Pepix Whitepaper v0.8

Timestamp: 2025-09-29 23:26:56 UTC

Project Overview

Pepix is a limited, pixel-art collection inscribed on the Pepecoin blockchain, blending meme culture, 8-bit artistry, and rarity-driven mechanics. Each Pepix is generated from a base template with custom layers and accessories, ranging from simple (rarity 1) to ultra-legendary one-of-one masterpieces (rarity 10).

Every Pepix is a static pixel sprite — uniform in pose, uniform in scale — with uniqueness expressed only through layered traits, skin variations, backgrounds, and rare props. This ensures maximum consistency while preserving scarcity and originality.

Artistic Authorship and Sustainability

All Pepix are handcrafted via digital art by the creator, Subsonic_█epe. At least 50% of all proceeds of sales will go toward minting and raising base inscription fees for new Pepix sprites as the community sees fit.

Minting and Inscription Fees

Base Inscription Fee (Image + Cryptic Text): 420 PEPE

Includes: Pepix artwork + associated cryptic inscription permanently etched on-chain.

Ultra-legendary traits are locked permanently after first use (never reused).

Trait System

Accessories Pool: Hats, Spectacles, Necklaces, Cigarettes, Tops (hoodie, robe, t-shirt, sweater, etc.)

Backgrounds: Flat colors, gradients, patterns, or unique cosmic backdrops

Skin Tones: Base green + rare variants (neon glow, shadow black, radiant gold, etc.)

Props: Static external objects (staves, weapons, companions, etc.)

Eyes and Expressions: Neutral, sleepy, angry, glowing, laughing, etc.

Ultra-Legendary Rule: Any trait used in a Pepix 10/10 rarity is permanently retired and cannot be reused.

Verification and Provenance

Genuine Pepix are only inscribed through the Pepix Creator Address:

PiZntAfTuqPEiBgovFtPJQrLZ9GTFi77xx

Every Pepix consists of:

1. The image file inscription
2. The cryptic text inscription

Both are permanently on-chain and verifiable through the Creator Address.

Verification Process (v0.8)

Because Nintondo.io does not currently support memos or messages, verification now uses nonce dust amounts.

How to Verify Your Pepix Holder Role:

1. Request verification in #ready2verify (format: PEPIX-VERIFY--).
Example: PEPIX-VERIFY-Pepix7-@CoolFrog#1234
2. A team member assigns you a unique nonce dust amount in PEPE.
3. Send that nonce dust amount from the wallet holding your Pepix to the Creator Wallet:
PiZntAfTuqPEiBgovFtPJQrLZ9GTFi77xx
4. Post the TxID in #verification.
5. Once confirmed, you'll be granted the Pepix Holder role.

Notes:

- No private keys or seed phrases are ever required.
- Verification is manual and on-chain verifiable.
- Dust amounts are trivial, proof-only.

Supply and Governance

The Pepix collection supply is permanently capped at 4,269 Pepix (plus matching text inscriptions). Honorary Pepix from the gifting period are separate and verifiable. This cap will never increase or decrease.

Collectors' voting power is weighted: top 5 Pepix (by rarity) at full value, remainder at 50%.

Future Expansion: Decentralized Creation

After Pepix420, new creators may join under strict rules (private Discord channel). They will:

- Use the base Pepix file and official catalogue of props.
- Follow size and format standards.
- Pay base inscription fees.

Submissions must include TxIDs for review by the advisory council/creator before being added to the #pepix-master-list and official GitHub catalogue.

Supply cap (4,269) remains unchanged. Pepix beyond this are Novelty Pepix (not catalogued). Honorary Pepix remain distinct and verifiable.

Deposit covers 420 PEPE x 30 inscriptions.

Trust Playbook

- Wallet Transparency: only Creator Wallet used, verifiable on-chain.
- Public Accounting: monthly reports of Pepix created + inscription fees.
- Immutable Supply & Traits: supply fixed at 4,269, traits catalogued.
- No Stealth Mints: all Pepix announced before inscription.
- Advisory Council: after 15 members, observers elected.
- Open Audits: third-party audits welcome.

Creator Wallet Policy

Transparency is core to Pepix. 50% of proceeds earmarked for inscription fees. Funds held in Creator Wallet only used for Pepix inscriptions. Future plan: multi-sig wallet after council election.
